### Roderick Abif 1 Pty Ltd (ABN 72 150 865 008) Trading as Orford Food Services

#### 1. TITLE

Risk in any goods supplied by the seller to the buyer shall pass when such goods are delivered to the buyer or into custody on the buyer's behalf but the ownership of any goods supplied by the seller to the buyer shall remain with the seller until payment in full is made for the goods.

#### 2. WARRANTIES AND REPRESENTATIONS

All new goods supplied are warranted to be free from defects in material and workmanship for a period of 12 months from time of invoice.

The seller is not liable for any injury, loss or damage, directly or consequential, arising out of the use of or the inability to use the goods. Before using, the buyer shall determine suitability of the goods for the buyer's intended use and assume all risk and liability.

#### 3. ACCEPTANCE

An offer or quotation by the seller shall become binding upon the seller upon written or verbal acceptance of the quote or of the goods discussed verbally. Acceptance of the goods is deemed to be acceptance of these terms and conditions.

#### 4. REJECTION

Except for defective goods supplied by the seller, goods cannot be rejected. Goods damaged during transit on the buyer's own transport are not covered by Orford Foods Services insurance.

#### 5. MANUFACTURERS SPECIFICATION

Due to continuous improvement processes, product specifications may change without notice from time to time.

**CABINET CLASS** is a combination of Climate Class and Temperature Class as per the requirements of Australian Standard AS1731

e.g.:- 3L1, 4L2, 5L3 etc.

**CLIMATE CLASS** defines the climatic ambient conditions for which the cabinet is suited.

Refer table below.

Climate Class	Ambient Temperature	Ambient Humidity
	°C	% RH.
3	25	60
4	30	55
5	40	40
6	27	70
7	35	75

**TEMPERATURE CLASS** defines the temperature at which the appliance is capable of maintaining product, at a particular Climate Class as per the requirements of Australian Standard AS1731.

Refer examples below:

**L1**

At the above climate class product temperatures can be maintained between -15°C and -18°C.

As per Australian Standard AS1731.5: 2003 and AS1731.6: 2003. 5 Table 1.

**L2**

At the above climate class product temperatures can be maintained between -12°C and -18°C.

As per Australian Standard AS1731.5: 2003 and AS1731.6: 2003. 5 Table 1.

**L3**

At the above climate class product temperatures can be maintained between -12°C and -15°C.

As per Australian Standard AS1731.5: 2003 and AS1731.6: 2003. 5 Table 1.

# Minimum Energy Performance Standard (MEPS)

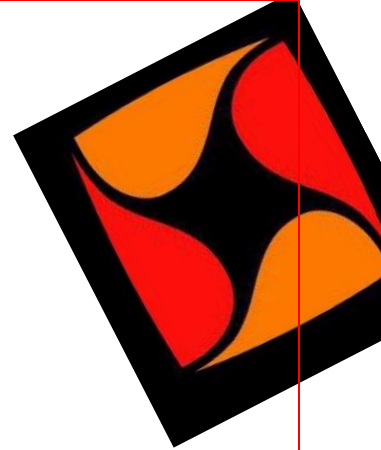

## Why it matters

### What are the Consequences if products do NOT comply

The regulator can

- ⇒ suspend a model's registration
- ⇒ Cancel a models registration
- ⇒ Enforceable undertakings
- ⇒ Infringement notices
- ⇒ Civil penalty orders
- ⇒ Injunctions

The regulator can publicise details relating to enforcement responses including the names of registrants and the model numbers of the products

### Protect Yourself

Check that the cabinet is registered for MEPS / GEMS

- ⇒ refer to the MEPS website [reg.energyrating.gov.au/comparator/product\\_types](http://reg.energyrating.gov.au/comparator/product_types)
- ⇒ Research the cabinets MEPS figures on the MEPS website. If for example the MEPS figure is 5.8 (kWh/24hr/m<sup>2</sup>), this means the amount of total energy consumption over a 24 hour period per square metre of display area
- ⇒ If you cant find the cabinet on the MEPS site, assume it is NOT registered and therefore not legally able to be sold or used in Australia and / or New Zealand
